# Qualimet News

QC Inspection Services

7817 Coronet Road, Edmonton, AB T6E 4N7

VOL 6 ISSUE 2

*"Your source for Quality Materials Engineering"*

## From The Desk Of...

### The General Manager

We are pleased to announce that we have embarked on a journey to better represent our Company and the high quality of engineering services we provide. Qualimet Inc. is a name that better represents our type of services. Qualimet is far more than just inspection; this new name should invoke thoughts of Quality, Qualified, Metallurgists, Metallurgy, Metals, and Materials Engineering Technology, to mention a few. You should expect to see Qualimet News on a very regular basis, with up-to-date Welding & Testing information relevant to the Pressure, Pipeline, Structural, Tank Truck and Quality Control Industries.

This is a change in name only, not in our business. We've been providing Quality Materials Engineering and Technology services since 1973, and we'll continue to provide the same **Responsive, Responsible** and **Successful** services to our Clients.

We're committed to helping your business succeed, so please feel welcome to call any of our staff if you need a second interpretation of any code or have questions of a technical nature. This is a complimentary service we supply to our clients.

Qualimet wishes to thank all of our Valued Clients for your confidence and support, which has provided the strength to allow us to be counted among the best of the Materials Engineering organizations, not only in Western Canada, but the World.

**Thank-You!**

## Tank Trucks...

A REMINDER for those clients who are registered with Transport Canada for the manufacture, repair, or recertification of CSA B620 highway tanks: The latest edition of this code is CSA B620-98. This comes into effect August 15, 2002. For those companies that are not operating to the latest addenda of this code (April 2001), you will be required to upgrade your quality system program. Please contact Qualimet Inc. for more details.

## Congratulations...

**Mark Radmanovich** for achieving Level II certification in both CSA W178.2 Visual Welding Inspector and API 510 Pressure Vessel Inspector.

**John Sprentz** for achieving his CGSB Level II Ultrasonic Testing Certification.

## Birthday Wishes...

Anita Dingwall – January 11<sup>th</sup>

Don Keith – January 28<sup>th</sup>

Travis Cook – February 21<sup>st</sup>

**Happy Birthday!!**

## Pressure Welder Certification...

**Did you know?** Welders wishing to be qualified to weld Vertical Up and Down are required, by ASME Sect IX, to conduct two separate tests, one test for each direction. Please call Qualimet Inc. if you have any questions.

## ASME Code Books...

Most code books expired December 31, 2001. To order your new code books please contact Anita at 1-800-621-8979 or e-mail her at:

[anita@qualimetinc.com](mailto:anita@qualimetinc.com)

## A Little Humor...

### Welders

**Q:** Why do welders work such long hours?

**A:** Because they find their work so riveting.
