SLIP TANKS NEW LEGISLATION

On August 15, 2002, the new Transportation of Dangerous Goods Regulations came into force.

These new regulations apply to some changes for portable refueling tanks over 450 litres.

Effective **January 1, 2003**, all existing tanks must be inspected by a CSA B 620-98 certified highway tank testing facility.

New tanks must be built to CGSB 43.146.02 or CSA B 621-98.

Please call Jan at 1-800-621-8979, ext. 14 for further details on how to become a certified CSA B 620-98 testing facility or a certified CGSB /CSA manufacturing facility.
